PROFESSIONAL SUMMARY

Egyptian Baccalaureate student and self-taught developer focused on software development and cybersecurity. Built and published 2 projects in 10 days using Python, SQLite, HTML, CSS, and JavaScript, including a Telegram bot with wallet, referral, and withdrawal systems. Strong problem-solving and independent learning skills. Seeking a student training program or entry-level role in software development or cybersecurity.

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript

Web Development: HTML, CSS, GitHub Pages, Responsive Design

Tools and Data: SQLite, Telebot, Telegram Bot API, GitHub

Areas: Cybersecurity Fundamentals, Electronics, Problem Solving, Self-Learning

EXPERIENCE

Independent Software Developer - Self-Employed (Personal Projects), Minya, Egypt Oct 2026 - Nov 2026

- Delivered 2 independent projects end to end in 10 days (Oct 26 - Nov 5, 2026): a Python Telegram bot and a responsive personal website, both published and live.
- Developed a Python bot with 6 service modules, including 3 core systems: referral and invitation tracking, a digital wallet for balance management, and withdrawal-request handling.
- Designed a SQLite database for users, balances, and requests, and integrated the Telebot library with the Telegram Bot API to run interactive menus and user workflows.
- Designed and deployed a responsive portfolio website with HTML, CSS, and JavaScript on GitHub Pages.

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript, GitHub Pages antonyos2010.github.io

- Presents personal information and selected technical projects in a responsive layout. Published Nov 2026.

AccountX - Python Telegram Bot | Python, SQLite, Telebot t.me/accountx2026bot

- Independently developed from concept to deployment (Oct 26 - Nov 5, 2026). Published and currently running.

EDUCATION

General Secondary Certificate (Egyptian Baccalaureate System) - Currently Enrolled Expected: July 2027
Secondary School for Basic Education, Egypt
